

PRODUCT FACT SHEET - CASH | CREDIT | DEBIT

Pair Price Watcher gas price signs with a convenient Cash | Credit | Debit display to maximize profits. Communicate prices by payment method and increase your store traffic with a streamlined payment display that matches the quality of all Watchfire products.

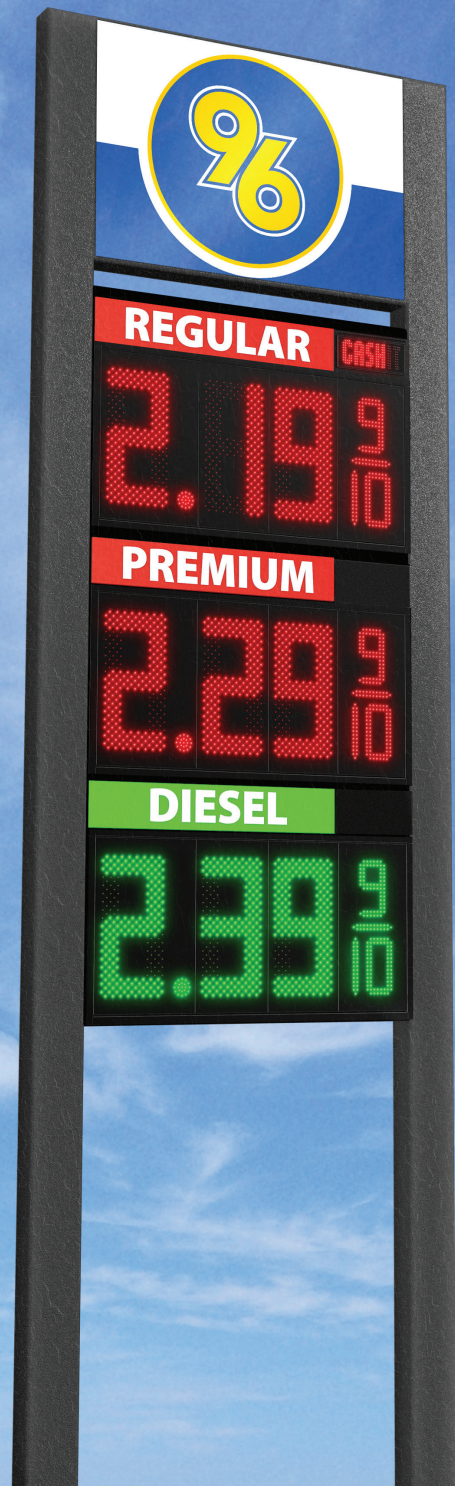

Our engineering team designed our Cash | Credit | Debit displays to blend seamlessly with the Price Watcher family of products. They incorporate the same design-friendly front ventilation and are fully assembled for plug-and-play operation in new structures or retrofits.

Watchfire's Cash | Credit | Debit displays communicate with Price Watcher signs over existing data networks. They share the same programming options, so they can be controlled by key fobs or a variety of popular POS systems. Hold time can be adjusted as needed.

Watchfire Cash | Credit | Debit displays carry a 5-year warranty and 10-year replacement parts guarantee.
