

PRODUCT FACT SHEET - PRICE WATCHER™

THE RIGHT CHOICE FOR FLEXIBILITY AND CONVENIENCE

We developed Price Watcher signs to service growing markets: independent gas stations, convenience stores, and national chains looking for reliable LED gas price solutions. Designed with a wish list of features requested by station owners and operators, these bright, clear displays are easy to install, maintain, and operate. Pair Price Watchers with our convenient Cash | Credit | Debit display to communicate price differences and maximize your profits.

Price Watchers make a fresh impression on consumers, depicting a retail location that is clean, modern, and committed to the latest technology.

The fully assembled plug-and-play unit makes installation or retrofit upgrades quick, easy and affordable.

The windowless design produces a display that is up to 40% brighter with less glare, and reduces moisture and heat build-up for optimal viewing and maximum durability.

Our industry-best, 5-year warranty covers all Watchfire manufactured parts and factory labor, and comes standard with every Price Watcher™.

Use the wireless remote to change sign prices within 200 feet. Long-range and campus-wide communication options are also available. POS system integration allows users to sync with in-store prices.

Front ventilation boosts energy efficiency, lengthens LED life and lowers your customers' utility bills. Built-in fans eliminate the need for expensive add-on kits and simplify installation.

Encapsulation seals out moisture and contaminants. Internal components are rated to withstand internal cabinet temperatures of -40°F to +140°F.

Advertise prices for other merchandise by adding or removing decimals and nine-tenths to display prices in different formats.

Product	Available Colors	Viewing Angle	Max. Power Requirement	Cabinet Weight	Outside Dim. (HxWxD)	Cutout Opening Size
8" Price Watcher	Red, Green, Amber, White	140° H x 70° V	0.3 A @ 120 V (36 W) UL Listed (UL 879)	15 lbs.	13 1/2" x 27" x 3 1/4"	11 1/2" x 25"
