

STROUD HIGH SCHOOL

STROUD, OK • S16mm • 14' x 20'

When we did a cost-benefit analysis of our options, video scoreboards seemed to be the best choice. The Watchfire videoboards gave us the ability to go beyond just keeping score. It makes the students and fans feel like they're at a big-time athletic venue. **Watchfire provided a strong solution for our needs. Their support through the installation has been awesome.**
